

Please do not rescind, alter, or diminish Wisconsin's or any other state's do not call list, as the federal law is not as tough or comprehensive, and does not offer the same protection to citizens. The tighter restrictions of our law have helped create much more peace in my household, and still do allow non-profit groups, and those granted permission, to call.

Thank you for providing the opportunity to communicate my thoughts on this issue.

Sincerely,

Paul Strecher
